Limetree Bay Terminals NPDES Sampling: A 24-hour NPDES Compliance Sampling Inspection (CSI) was conducted at Limetree Bay Terminals in St. Croix, VI, as requested by CASD. Grab and composite wastewater samples were collected at three locations: Outfall 001 (main outfall), Outfall 401 (wastewater treatment plant outfall), and the Ballast Tank (influent). Samples were collected for the analysis of parameters listed in Permit No. VI0000019. In addition, samples were also collected for the analysis of RCRA Skinner List constituents (VOAs, NVOAs, and metals). The influent to the wastewater treatment plant includes RCRA groundwater remediation wastewater. EPA-Edison Lab is conducting the analyses (POC: R. Morrell).
